EDUCATION

Bells University Of Technology
B.Tech Computer Science *GPA: 4.48*

Ota, Ogun State.
January 2021 - July 2025

WORK EXPERIENCE

Konectgate LTD
Software Developer

London, United Kingdom
September 2024 - Present

- **Project Design and Foundation Setup:** Spearheaded project structure setup, driving frontend scalability and responsiveness for multi-phase fintech application. Leveraged NextJS, TypeScript, and Zustand, optimising code modularity by 20%.
- **Credit Scoring & Payment Features:** Implemented credit scoring and direct debit interfaces, achieving 99% UX continuity and real-time data sync. Developed frontend for Payments & Direct Debit, reducing transaction latency by 15% through UI streamlining techniques.
- **Extended Features & User Interfaces:** Engineered bulk payment scheduling, developer sandbox, and blog/landing pages, ensuring 100% cross-device compatibility and responsive layouts. Collaborated on data-driven insights with data visualization tools, enhancing user engagement by 30%.
- **Superadmin App Development & Custom Dashboards:** Built customizable widget dashboards and superadmin controls, enabling interactive data insights with widget customization. Prepared for deployment, delivering comprehensive UI/UX testing for seamless user onboarding experience.

CWG PLC
IT Support Technician

Lekki, Lagos
March 2024 - August 2024

- **Solution Development:** Developed 3+ in-house applications, including an attendance tracker, service desk application, and e-commerce platform using Microsoft Power Apps and SharePoint, reducing company expenses by 15% and streamlining workflow processes.
- **Infrastructure Support:** Resolved 50+ hardware-related issues, contributing to 98% uptime reliability of IT infrastructure, and collaborated on preventative maintenance, enhancing system longevity and operational efficiency.

Ijidola Digital Agency
Software Developer

Lagos, Nigeria
April 2023 - March 2024

- **Advanced API Integration:** Implemented and optimized robust API integrations, enhancing data handling efficiency by 20% and establishing seamless backend connectivity.
- **Reusable Component Design:** Architected 15+ reusable UI components, standardizing code practices and cutting time-to-market by 25%, ensuring scalability and efficient resource allocation.
- **Performance Optimization:** Conducted thorough frontend performance tuning, reducing page load times by 30% to provide a faster, smoother user experience and boost app responsiveness.

SKILLS

Programming Languages:	JavaScript, TypeScript, HTML, CSS
Technologies & Frameworks:	React JS, Next JS, Tailwind CSS, Firebase, Microsoft Power Apps
Tools:	Git, Figma, Jira, Postman, NPM
Project & Performance Optimisation:	Page Load Optimisation, Modular Architecture, Responsive Design

PROJECTS

Passwave NG *ReactJS, GraphQL, TypeScript, TailwindCSS*

<https://www.passwave.ng/>

Passwave is a streamlined event ticketing platform enabling users to discover events, purchase tickets, and access venues easily. With real-time ticket inventory management and secure payment processing, it serves both event organizers and attendees.

FinJam - Finance Tracker *ReactJS, ChartJS, Firebase, TailwindCSS*

This Finance Tracker app is a personal finance management tool that enables users to track income, expenses, and savings goals. Designed for simplicity and efficiency, the app empowers users to gain control over their finances through detailed insights and customizable tracking options.
